A Doll's House (Danish and Bokmål: Et dukkehjem; also translated as A Doll House) is a three-act play written by Norwegian playwright Henrik Ibsen. It premiered at the Royal Theatre in Copenhagen, Denmark, on 21 December 1879, having been published earlier that month. The play is set in a Norwegian town circa 1879. The play is significant for the way it deals with the fate of a married woman ...

The previous chapter describes universal and widely available interventions designed to strengthen parenting and support parents of young children. This chapter turns to evidence-based and evidence-informed interventions used in a variety of settings (e.g., health care, education, the home) with some evidence of effectiveness in supporting parents and parenting knowledge, attitudes, and ...

Dosing and monitoring of blood levels during pregnancy and around delivery. Lithium has a narrow therapeutic range of 0.5–1.2 mmol/L and higher levels may lead to toxicity (Oruch et al. 2014). Excretion of lithium is almost exclusively renal, hence blood plasma levels mainly depend on intravascular volume and glomerular filtration rate (GRF) (Oruch et al. 2014; Grandjean and Aubry 2009).

Despite a large amount of research on depression and abuse, there is still a controversy on how abuse is measured and on childhood trauma's effect on the physiological function of adults. Here, we attempt to clarify the relationship between different types of abuse and depression while focusing on childhood abuse. This article, unlike prior research, provides an overview that addresses ...

In addition, out of 67 new molecular entities approved by the U.S. FDA between 2000 and 2002, 25 compounds demonstrated significant sex-specific differences in PK and efficacy (Yang, 2009). Ignoring female participants in clinical trials has backfired and has resulted in the significant implications in women directly related to drug use.
