Overdrive is the cleanest, fastest, and most legal way to access millions of ebooks—not just ones in the public domain, but even recently released mainstream titles. There is one hitch though: you'll need a valid and active public library card. Overdrive works with over 30,000 public libraries in over 40 different countries worldwide.

Linux Documentation Project

The Linux Documentation Project is working towards developing free, high quality documentation for the Linux operating system. The overall goal of the LDP is to collaborate in all of the issues of Linux documentation.

The Linux Documentation Project

The Linux Documentation Project is an all-volunteer project that maintains a large collection of GNU and Linux-related documentation and publishes the collection online. It began as a way for hackers to share their documentation with each other and with their users, and for users to share documentation with each other. Its documents tend to be oriented towards experienced users such as professional system administrators, but it also contains tutorials for beginners.

Linux Documentation Project - Wikipedia
