A Case

Case Study: Five years ago, Mr. and Mrs.

Smith were presented to an in

vitrofertilization (IVF)

clinic in their local

hospital. After a

number of attempts,

eight eggs were

successfully fertilized.

Three of these were

implanted and eight

months later Mrs.

Smith gave birth to

twins, but only one

baby survived.

DEAD COUPLE'S EMBRYOS TO BE THAWED - The Washington Post

The central issues raised here are whether the two frozen embryos have a legal right to 1) live and be implanted in a surrogate mother, and,

Where To Download The Orphan Embryos A Case Study In Bioethics

when and if they are born, 2) assert inheritance rights in the Rios' estate.

Equally important is the question of the extent to which research into the new reproductive technologies should be allowed or restricted.
